

iOSMigrationSteps

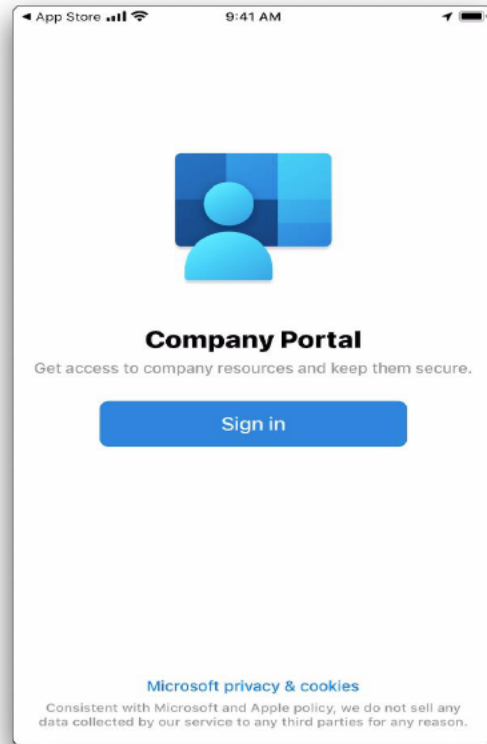

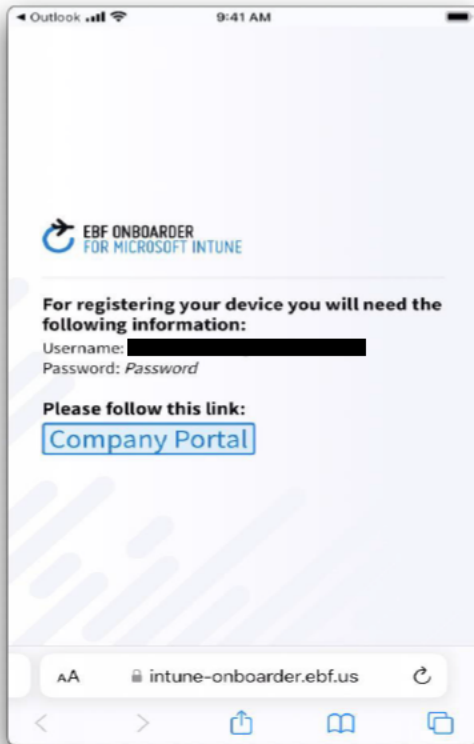

1. Ensure your device is on WiFi. Open the email from EBF Onboarder Service **on your iOS device**, press “Start Migration”.

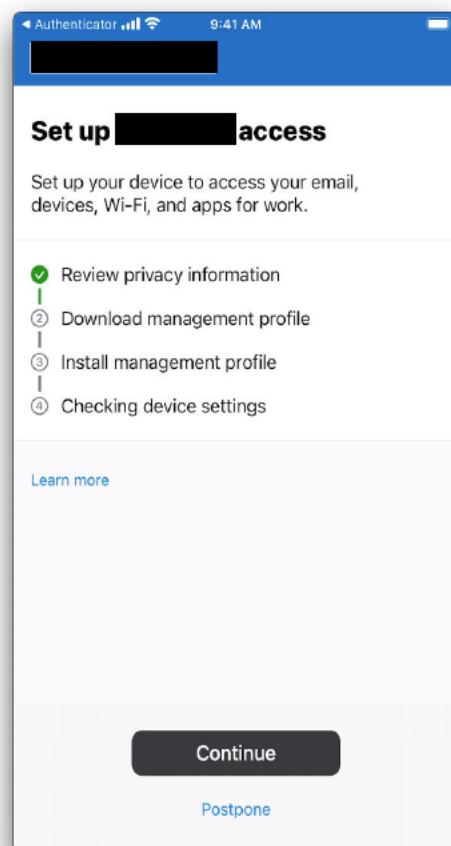

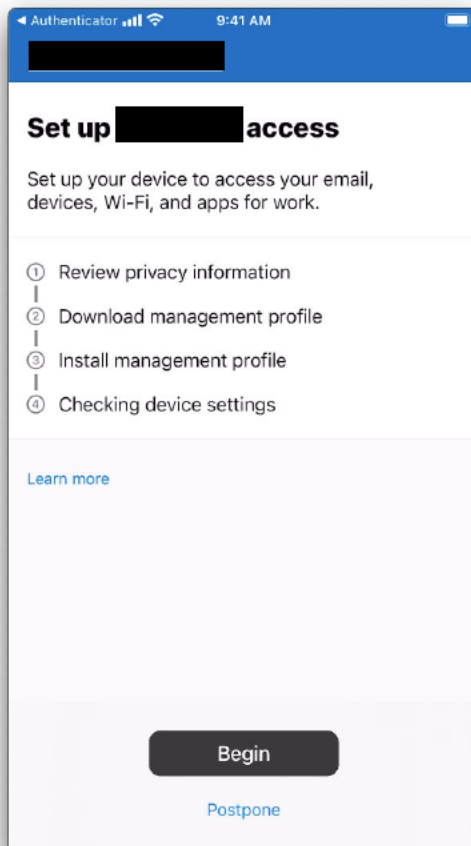

2. You will have several prompts read and confirm all. Press “Start Migration” and allow the countdown to complete.

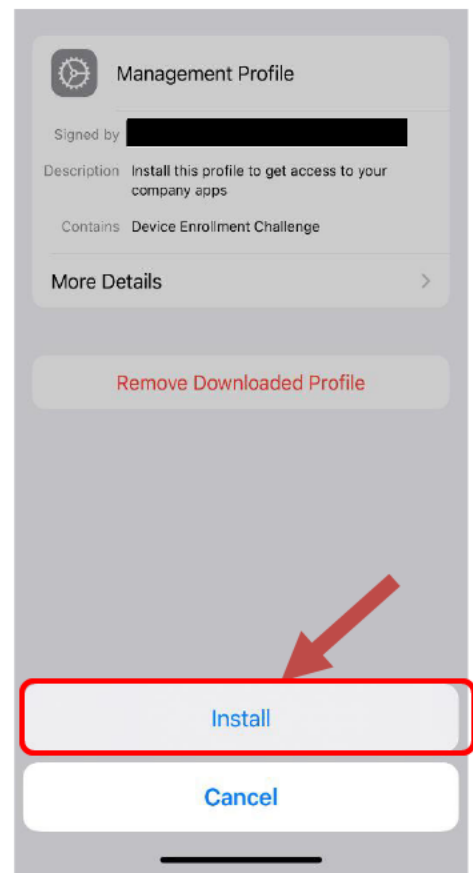

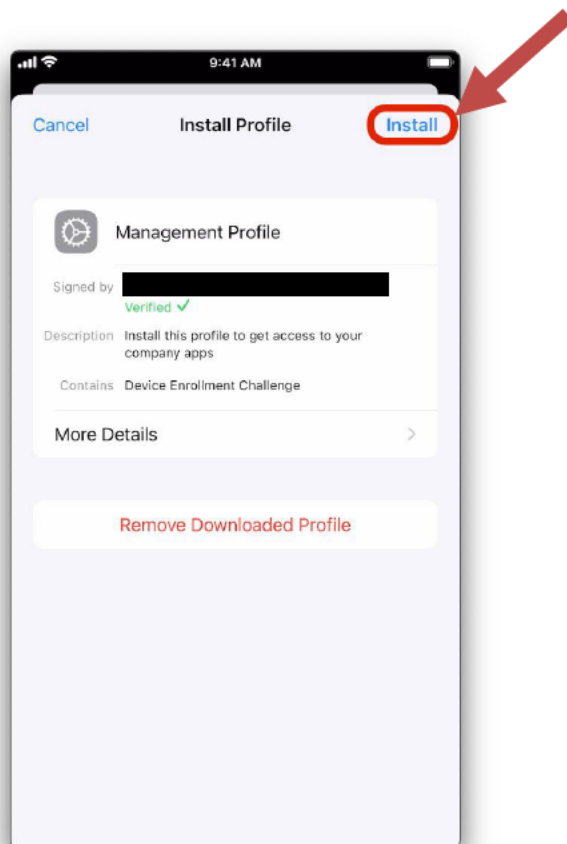

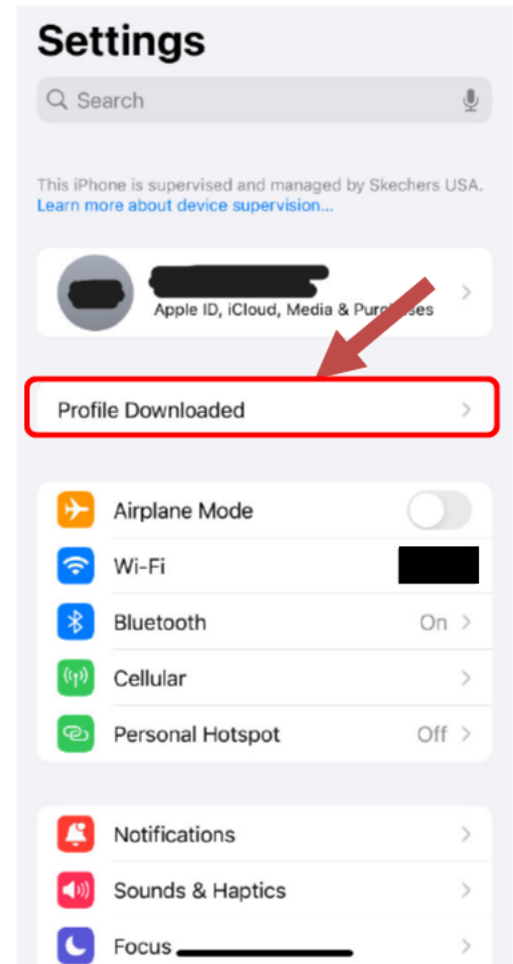

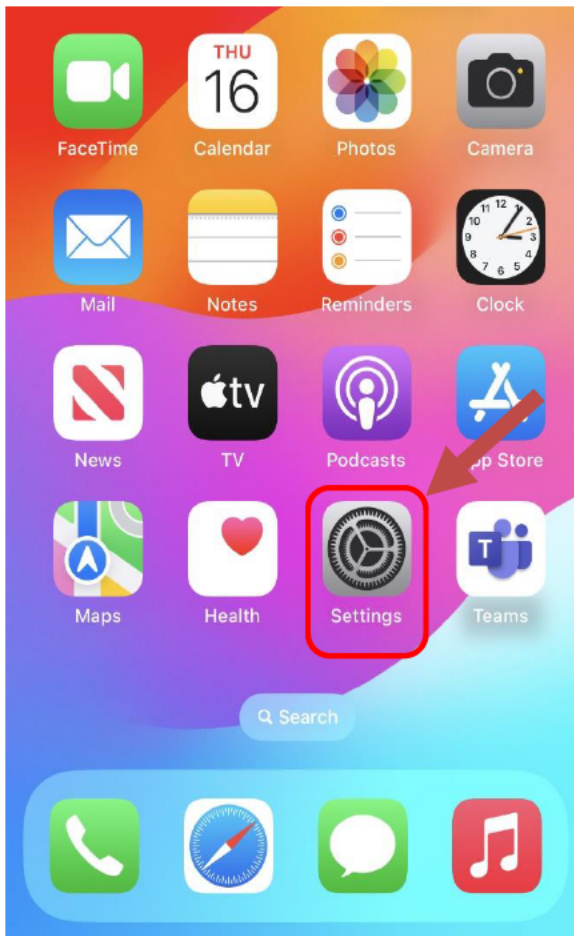

3. When the countdown completes, press “Company Portal”, “Open” and press Sign-in. Use your [REDACTED] email and network password ([REDACTED]) to sign in the Company Portal. (NOTE: If you are directed to the app store and are unable to open the app, please leave the app store and open the app from the home screen. The app is already on your device.)

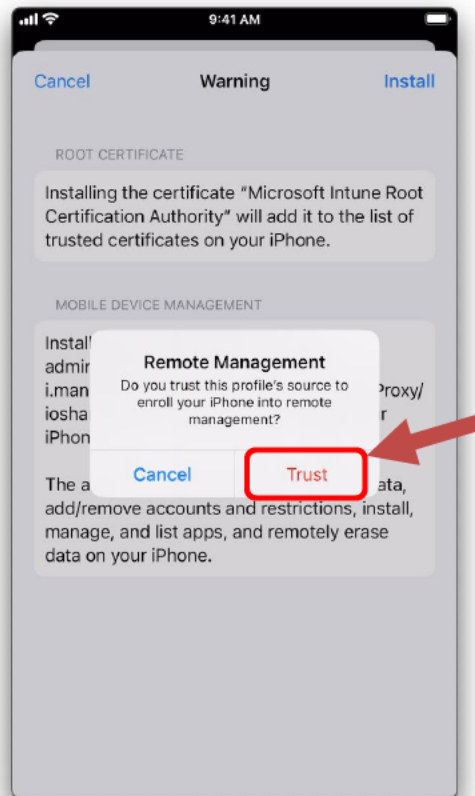

3. There will be 4 steps to complete, follow the prompts as instructed by the Company Portal App.

4. When the profile is downloaded, install it by opening the **Settings app> Profile Downloaded (at top of screen)>Install>(Enter your iPhone passcode if prompted)>Install>Install>Trust>Done**. Then return to the Comp Portal app and hit Continue for the device to “check settings”.

5. Open the "Company Portal" again and press "Continue" and allow the device to check settings.
